## Ear Candling

Each ear candling session takes about ½ an hour. Before each session, he will offer you a cotton swab with or without hydrogen peroxide solution for cleaning of your ears of any loose earwax or debris you may have. He then proceeds with the ear candling which takes about ½ hour (including energy work).

During an ear candle session, Bill will use stones and energy work to assist with the healing qualities of the ear candles to assist in removing energy blockages around your ears. The results are better hearing and an effective ear candling session.

After your session, he will offer you another cotton swab with an herbal ear oil solution (Eucalyptus, Tea Tree Oil, Lavender, Garlic, Peppermint and Mullein oils). Most find this combination of oils after a session to be relaxing, refreshing and invigorating.

**One result of ear candling is a loosening up of compacted ear wax.** A client of mine had problems hearing out of one ear (at the complaint of his wife). After a session, his ear started itching. I offered him a q-tip to see if he could resolve the itching. Out of each ear, he pulled out several full q-tips full of dark wax that had become loose with the ear candling. Several days went by and he returned to me saying that he went home and continued to pull out the wax out of his ears. He later told me that he had never pulled out that much ear wax in over ten years.

**Another result of ear candling is the removal of debris within your ear canal.** While camping, a friend came to me complaining about itching in her ear before my session. She asked me to perform an ear candling on her. After the session, she felt relieved and when we opened up the ear candle, there had been a gnat inside of her ear candle. It had been caught up in the wax of her ears and tickled the hair inside of her ear canal and the ear candle removed the insect.

He charges a base price of \$20 per 1/2 hour (approximate) session and this includes one pair of plain paraffin ear candles (one candle each ear), each additional 1/2 hour is \$20 and will include another pair of candles. He also has different types of candles with different benefits of each candle, Beeswax, Lavender, Herbal Paraffin (with Eucalyptus, Lavender and Tea Tree oils) and Herbal Beeswax; the pair of ear candles will be of different charges.

**Plain** - Contains no herbal qualities or oils.

**Beeswax** - Contains 100% all natural beeswax with the sweet fragrance of beeswax.

**Lavender** - Contains Lavender Oil. Made to sooth and relieve some of the most common ear problems.

**Peppermint** - Invigorating and refreshing, peppermint ear candles uses peppermint oil during the treatments to refresh you during and after the session.

**Herbal** - Contains Eucalyptus, Lavender and Tea Tree oils. Made to soothe and relieve congestion.

**Herbal Beeswax** - All of the natural healing power of Eucalyptus, Lavender and Tea Tree oils combined with 100% Pure Beeswax.

You may bring your own ear candles and he will perform an ear candling for you at \$20 per 1/2 hour session.
