## Energy Work

Currently, Bill's basic energy work "toolbox" includes:

- reiki
- basic energy manipulation and movement (see below)
- working with the energies of colors and light within the chakra system
- some dowsing and muscle testing
- working with the energies of stones and herbs
- shamanic healing
- some Hanna Kroeger body work techniques

A session with Bill would consist of scheduling a time to come to his office for a treatment. Bill will ask you if there is a place you feel needs to be worked on or if there is general healing you would prefer.

If you feel there is a need to work on one specific area, he will work on that one area along with the surrounding areas and energy fields to assist in balancing the area for the body to accept the healing that has been taken place.

Most people's bodies will forget what it is like to be healed in one area due to the type of trauma or the duration of an injury. Since the body may remember what it is like to be injured, a healing could reverse itself energetically. Bill attempts to energetically assist in letting the body know it has been healed and it is OK to remain healed. In allowing the body to remember what it was like before the trauma or injury, the body stays healed longer and the treatment is more effective.
