## Spectro-Chrome Therapy

The Sun's power to heal has been recognized by man for thousands of years. Without the nourishing Sun's rays our bodies would wither and die and all life on this planet would soon end. The Sun's rays contain the full spectrum of colors, with only a few of them detectable by the human eye. To maintain good health our bodies must be able to adequately absorb and use the right amount of Sunlight. The body absorbs Sunlight via the eyes and skin.

*For centuries scientists have devoted untiring effort to discover means for the relief or cure of human ills and restoration of the normal functions. Yet in neglected light and color there is a potency far beyond that of drugs and serums... Color is the simplest and most accurate therapeutic measure yet developed.*

*- Dr. Kate Baldwin reprinted from the Atlantic Medical Journal, April, 1927*

For years, people have known how people react to colors. Blue makes you cool and comfortable, yellow makes you cheery. Other colors such as pink are used in the federal prison system to assist in calming inmates. Have you considered that colors can be used to treat diseases and ailments. Please join Bill as he assists you in being your 100%.

### *How it works:*

Within our body, our organs, muscles, cells and nerves all have a level of vibration. When our body becomes out of balance, disease may occur. Each color has its own frequency and vibration. Through extensive research, color and light will help bring our physical and emotional systems into balance. Spectro-Chrome works entirely in the energy fields of the aura. By allowing the aura to absorb and process the energies of the colors projected onto you, you are able to have a more complete and thorough healing session. This can be used with existing holistic or allopathic treatments to enhance their effectiveness and possibly shorten the duration of treatment. You cannot overdose on Spectro-Chrome. The Aura and the body will absorb what is needed and will discard what is not needed.

In 1920, Dinshah Ghadiali introduced Spectro-Chrome therapy in New York and in 4 years trained over 800 professionals and lay persons. He also designed and sold color projectors and accessories. Great healing was done. Then the American Medical Association and Food and Drug Administration had all his records burnt by 1947 and stopped him from practicing.
